# Product Overview

There are decades of integration and field experience with Scada systems behind the **ScadaDroid R2** alarm unit, which means it's designed to increase up time and decrease costs. **ScadaDroid** has discarded the outdated industry-standard technology to create a powerful and user friendly alternative.

## Connect

**Built-in Cell Modem**, with other connection options available

**Multiple Modbus TCP** clients can be configured for alarm input

**Notifications** through text, email and voice

## Simplify

One device protects a **Scada system** of any size - Up to 100 phonebook entries plus 1 of 4 groups plus 1 of 8 shifts

**Compact** - Choosing one of the industries smallest alarm dialers makes retrofitting facilities less frustrating

**Low down time** - User friendly web interface makes setup quick and easy
